

CellTell[™] Positive Pressure Indicator

CELLTELL[™] positive safety indicator takes the guesswork out of pressure cell status.

- Determine pressure status at a glance
 - **CELLTELL UP**—*PRESSURE WARNING*
 - **CELLTELL DOWN**—*SAFE PRESSURE LEVEL (<10 psi)*
- Simple, fail-safe design
- Unaffected by high temperatures
- Resistant to motion caused by vibration and rotation
- Available in all common HPHT cell and lid configurations
- CELLTELL can be retrofitted into existing HPHT cells and caps

Fann Instrument Company offers a complete line of Drilling Fluids Testing Equipment, including HPHT Filter Presses and Filter Press Cells

Contact Fann for information about these and other Fluids Testing Instruments
